Established by IBF International Consulting in 2018, the **ICA World Foundation** brings together the members of **ICA World – the International Consulting Alliance** – to make a positive contribution to development.

Our mission is to support the achievement of the United Nations Sustainable Development Goals and to create a lasting, long-term impact.

**We aim to contribute to a more equitable, sustainable, and prosperous world by broadening perspectives from early years to later stages.**

Voluntary  
Training  
Initiative

## Young Professionals in Development

We offer a high-level traineeship programme for university students and recent graduates, providing hands-on experience in development cooperation.

Our traineeships help young professionals enhance their practical skills and deepen their understanding of global challenges across various sectors and fields of expertise.

Young  
Professionals  
in Development

## Voluntary Training Initiative

ICA Top Experts and member organisations provide short *pro-bono* professional training sessions to beneficiary institutions worldwide.

We complement traditional development cooperation projects by contributing to effective capacity building, while sharing our knowledge with local communities.

## Development Cooperation Awareness Raising

We promote development cooperation by facilitating knowledge transfer, sharing best practices, and informing individuals about career options in this field.

By connecting consultants and academia, we inspire innovation and foster a deeper understanding of development challenges and solutions.

## Critical Thinking in Schools

We provide educational programmes designed to broaden perspectives, foster critical thinking, and equip students to become active, engaged, and informed global citizens.

By teaching them to question information, recognise misinformation, and critically analyse events, we empower them to navigate complex global challenges and contribute meaningfully to society.

SUSTAINABLE  
DEVELOPMENT GOALS
